

SEMESTER AT SEA®

Semester at Sea offers up to 75 courses across several disciplines of study. Course syllabi reflect the expertise of the faculty member and the itinerary. Courses in **orange** indicate those that we try to offer on every voyage. All other courses are those we offer on most voyages.

All courses offered in a Semester at Sea voyage are either a Seminar Course or a Global Comparative Lens course. The Global Comparative Lens courses are those specifically designed to help students deepen their understanding of each of the ports on the itinerary through the *lens* of a particular discipline and will also strive to bring synthesis and comparison among ALL ports. The smaller, seminar-style courses are designed to also take advantage of the comparative framework of the ports of call, but will ground the learning in discussion and reflection.
